

International Mobility

Opportunities within Study Programmes

Jan. 16th 2026, Fri., h10:00 - aula magna A. Pacinotti, polo A, largo L. Lazzarino, Pisa

Within the various Degree Programmes (both Bachelor's and Master's), it's possible to include **study and training experiences abroad**. It is also possible to receive financial support by participating in various calls for applications, e.g., those of the Erasmus+ programme.

Are these experiences truly valuable from an educational point of view?

How can one make the most of the available opportunities?

Which aspects to consider for an informed choice about studying abroad?

What is the best time to plan a period abroad?

The event, primarily aimed at students of the Degree Programmes of the Department of Information Engineering, will host a discussion on the various aspects of international mobility, also drawing on the experiences of students who have made this choice in the past.

The following topics will be covered:

- Introduction
- Motivations and opportunities
- What those who have already had an experience say
- Degree Programme delegates: who they are and their role
- Q&A
